### What is PFLAG?

PFLAG stands for Parents, Families, & Friends of Lesbians and Gays. It is a grassroots network of community groups that provide support, education, and advocacy for the families and friends of GLBT people.

### What Does GLBT Mean?

GLBT is an acronym for the gay, lesbian, bisexual, and transgender community.

### Local PFLAG Commitment

PFLAG–Prescott Valley is committed to helping families and friends of GLBT people to become better educated on how they can support their loved ones. Through outreach, education, and advocacy, we believe it's possible to counter myths and misinformation about sexual orientation and gender identity and to foster strong, loving family relationships. PFLAG–Prescott Valley is determined to create an environment of love and understanding in our local community, so our GLBT family members and friends can live with dignity, respect, and true equality.

### Our Vision

PFLAG–Prescott Valley is dedicated to helping create a culture of love, respect, and appreciation for all people living in our community.

### Our Mission

The purpose of PFLAG–Prescott Valley is to open a community dialogue around the issues of gay, lesbian, bisexual, and transgender people and provide peer support for local families dealing with GLBT concerns in their daily lives.

### Resources We Offer

PFLAG–Prescott Valley offers individual and group peer support to families in our community. We have a database of local residents who can offer personal insight into family relationships with GLBT people, and we can convene a support group whenever necessary. PFLAG also provides educational opportunities covering a wide range of relevant topics. For the latest information on all PFLAG–Prescott Valley resources and activities, please contact the Prescott Pride Center by phone at (928) 445-8800 or via email at [info@prescottpridecenter.com](mailto:info@prescottpridecenter.com).
